

Rhea 34 Sedan 2020

Boat Name: **NEW BOAT**

Price: **€399,000**

Length: **34ft**

Fuel Type:

Location: **Poole**

Year: **2020**

On the water price starting from €399,000 including VAT

And beyond the horizon? From all times and all the objects that humans have imagined, the boat is undoubtedly, in its inspiration to travel, to discover, the only one that carries its dreams so far beyond the horizons. A subtle alliance of a multiplicity of more or less complex elements, sometimes imperceptible, elements held together by a link that only makes sense by the emotion it gives after the work is accomplished. Each new project is always a challenge for the architect. Fine water inlets and a lightly submerged stern to ensure optimal performance between 8 and 14 knots. With some of the lowest consumption in the cruise market, this small, brazen-looking hiker is also able to sail at nearly 22 knots. The youngest member of the range, it marries elegance, comfort and performance in modern lines discreetly revisited respecting the codes that made the success of its elders. Automotive-looking navigation console. Automotive-like navigation console. Waxed teak, mirror polished stainless steel encrustations, leather and microfibre coverings share a resolutely contemporary interior space. Sedan 34 thus reveals the arrival of codes borrowed from more terrestrial universes. A refined home that everyone can take with them as they travel

Engines and prices

Single engine options:

- Nanni T8, 320hp: Ex Vat. €332,500 / incl. €399,000
- Yanmar 8LV 370hp KMH50 A: Ex Vat. €335,833 / incl. €403,000
- Volvo Penta D6-370 EVC E3: Ex Vat. €340,833 / incl. €409,000

Twin engine options:

- Nanni T4, 2 x 205hp: Ex Vat. €346,667 / incl. €416,000

- Nanni T4, 2 x 270hp: Ex Vat. €353,333 / incl. €424,000
- Volvo Penta D3-220hp HS45: Ex Vat. €355,000 / incl. €426,000
- Yanmar 4LV 2 x 250hp: Ex Vat. €365,000 / incl. €438,000

Cruising speed: 8 knots

Max speed: 21 knots

Autonomy at 7 knots: 900 miles

RPM / Speed chart: (based on twin Yanmar 4LV engines (2x250hp))

1000 RPM / 5.5 knots

2000 RPM / 8.5 knots

3000 RPM / 15 knots

3810 RPM / 21 knots

Fuel burn @ 7 knots: 8 L/H

Construction / hull gears

Fibreglass hand laminated balsa core sandwich hull

Fibreglass Airex foam sandwich for the deck Isophthalic resin

Hull:

Bicolore gel coat standard: Ivory hull with marine blue stripes

All steel parts and screws only AISI 316L

Brass seacock under water line and chromed brass above

2 side doors portside and starboards side

stainless steel bathing ladder on transom

2 stainless steel rubbing stripes on transom edge

1 bow stainless steel rubbing stripe above waterline

1 stainless steel rubbing stripe under water line at bow

2 galvanised protection under keels, including zinc anodes (one galvanised protection if single engine version)

2 stainless steel rudder shafts (one galvanised protection if single engine version)

Iroko wood hull rubbing stripes on both sides of the hull

1 tunnel bowthruster 55kg with dedicated battery 110 amp, joystick at helm station

Deck / Deck gears

PVC foam sandwich laminate fibreglass Isophthalic resin for the deck with plywood sandwich

sections

Ivory gel coats

Ivory non skid on deck

2 retractable cockpit benches with cushions

Iroko wood bulkheads

Opening transom with manual pull up and down system (optional electric opening)

2 stainless steel dorade air vents

Vertical windlass 1000w (electric) with stainless steel anchor bowsprit with double roller

4 foldable stainless steel cleats on bulkheads + 2 fixed cleats on forward deck

Stainless steel rubbing stripe under cleats and fenders pad eyes

2 courtesy lights under forward deck stairs and 2 in cockpit

6 foldable pad eyes for fenders

2 gangway doors
